**EXPRESSION OF INTEREST (EOI): REVISION AND HARMONIZATION OF THE
CURRENT RH/FP SCM TRAINING PACKAGE**

EOI NUMBER: ICRHK | EOI | 12 | 2022

Vacancy Announcement - Individual Consultancy

Revision and Harmonization of the Current RH-FP SCM Training Package

Vacancy Announcement period 1st November – 11th November, 2022

TERMS OF REFERENCE

Developing a new Reproductive Health Commodity Management Training Package given the emerging evidence based practices in offering quality FP services in line with current global and National Standards and guidelines

Hiring Office International Centre for Reproductive Health - Kenya (ICRHK)

Background Reproductive health commodity security (RHCS) exists in the presence of supportive national policies, functional national and County logistics management systems, and the supply chain being timely and adequately available to service providers at all levels of the health care system. The government of Kenya's commitment to ensuring that reproductive health/FP services are accessible to all Kenyans is spelled out in the National Reproductive Health Policy, FP CIP, TMA, and RHCS Strategies.

Since 2013 with the inception of the devolved system of governance, the devolved system of governance has taken root in Kenya with all the forty-seven (47) County governments fully established and operational. The requisite legislative framework (the County Governments Act, the Intergovernmental Relations Act, the Public Finance Management Act, and the Urban Areas and Cities Act) has been put in place and, have been instrumental in enabling counties to set up necessary systems and structures that allow them to perform their functions.

With the devolved health system, the national government has the core mandate of health policy, health regulation, national referral health facilities, capacity building and technical assistance to counties, while the counties are responsible for health service delivery. The system is organized into six levels of healthcare – community, dispensaries, health centres, primary hospitals, secondary hospitals, and tertiary hospitals. A total of 12,714 health facilities owned by the government, private sector, and faith-based organizations, support RH/FP health service delivery across these levels. These are complemented by about 5,840 registered retail pharmacies, and 5,215 community health units across the country. To ensure quality of care, it is the responsibility of the National Government to ensure all the training packages are

	harmonized and meet the required standards to enhance the provision of RH/FP services including in humanitarian settings. In addition, the GoK recognizes the continuation of FP services when disasters and humanitarian crises strike. Continuation of FP services requires capacity building, systems strengthening, and availability of FP products and technologies at all times. The Division of RMH in September 2008 developed the Integrated Reproductive Health Commodities' Management Providers training package. Since then a lot of changes and developments have taken place globally and nationally which include a shift from millennium development goals(MDGs) to Sustainable Development Goals (SDGs and devolution of government. Further other documents have also been revised including FP guidelines, standards, and FP training packages. In addition, the above SCM RH/FP SCM guidelines did not harmonize the various training modules used by various stakeholders in SCM including KEMSA which is a state agency that has the mandate of handling RH/FP commodities. In line with the above, there is a need to update and harmonize the current RH/FP SCM training package in line with current FP practices. UNFPA in collaboration with the Government of Kenya wishes to engage an individual Consultant who has the expertise to support the revision and harmonization of the current RH/FP SCM training package with other existing Training packages to come up with one National RH/FP SCM Training packages.
Purpose of consultancy:	The purpose of the consultancy is to develop a new Reproductive Health Commodity Management Training Package given the emerging evidence based practices in offering quality FP services in line with current global and National Standards and guidelines
Scope of work: Description of services, activities or outputs:	Working closely with the Ministry of Health, the National Commodity Security Technical Working Group (TWG), UNFPA and other SCM stakeholders, the Consultant will undertake the following tasks: a) Prepare and present to the Head- DRMH/MOH and stakeholders, an inception report detailing the plan for undertaking the task outlining the methodology, key definitions, a preliminary list of key resource materials, and outlines of the commodity Training package (participants and trainer's manuals) b) Conduct a literature review on RH/FP SCM Training package and documents from similar contexts

	c) Conduct interviews with stakeholders to identify gaps in RH/FP SCM Training Package d) Collate and analyze relevant information to be used in the revision of the Trainers and Participants SCM Training package; e) Facilitate and lead the workshops to revise the RH/FP SCM Training Package f) Submit formatted draft soft copies of the harmonized RH/FP SCM training packages- Trainers and Trainees copies
Duration and working schedule	The consultancy will run for 25 days spread over 60 days (2) months of November 2022 to December 2022
Place where services are to be delivered	Mombasa with some travel for workshop review and presentation meetings
Delivery dates and how work will be delivered (e.g., electronic, hard copy etc.)	The following deliverables of the consultancy will be delivered. 1. Inception report 2. Draft zero of the RH/FP SCM Trainer's and Participant's training package 3. Second draft of the RH/FP SCM Trainer's and Participant's training package
Monitoring and progress control, including reporting	Weekly email and/or calls with ICRH Technical Advisor and UNFPA FP/RHCS technical specialist to discuss progress, share drafts and reports and discuss way forward.
Supervisory arrangements	The consulting will work under the ICRH Technical Advisor with support from the ICRH Research Officer
Expected travels	No travel is expected outside Nairobi except for the workshops. The cost of the workshops will be taken care by ICRH.
Required expertise, technical skills, qualifications and competence, including language requirements:	The Consultant is expected to have the following minimum qualifications: a) Advanced University Degree in Public Policy, Population, Social Sciences, Health, Economics or related field, preferably with a focus on sustainable development. b) Minimum of 7 years of relevant experience in advocacy, policy review and development, and health program management c) Experience in designing and implementing successful family planning advocacy strategies is a strong advantage d) Proficient written and oral communications skills in English e) Demonstrate excellent interpersonal and professional skills in interacting with government, civil society, and development partners

	f) Experiences in working with the Government or United Nations will be an added advantage g) Ability to work with a multi-disciplinary team of experts.
Other relevant information or special conditions, if any	COVID 19 protocols shall be observed as per the Ministry of Health guidelines.
Other Considerations	The Consultancy rates are pegged to national consultancy consideration rates as per the harmonized rates for the recruiting organization
Interested candidates are requested to send their Expression of Interest , Curriculum Vitae and a Sample of previous written assignment to procurement@icrhk.org by 11th November 2022 at 5:00pm
