

Consultancy to undertake Gaps Analysis on the Pre-service training curriculum and revision of the Universities and Training Institutions pre-service curriculum to include Family Planning (FP), Strengthen Human Rights Based Approach (HRBA) to FP and other Reproductive and Maternal health related issues such as Post Abortion Care, Emergency Obstetric and Newborn Care, Maternal and Perinatal Death Surveillance and Response among others

Background Information

Family planning (FP) and other reproductive and maternal health related issues such as Emergency Obstetric and Newborn Care, Post Abortion Care, Maternal and Perinatal Death Surveillance and Response among others has been acknowledged as important drivers to achieving the sustainable development goals in Kenya with substantial investments made in training healthcare workers despite that, there has been a significant gap in these areas at the preservice level for medical cadres.

To address this challenge, the Ministry of Health (MOH) in collaboration with, UNFPA and ICRH Kenya convened a stakeholder's forum in 2023 that brought together key players from academia, including universities and the Kenya Medical Training College (KMTTC). Some of the gaps identified by the stakeholders in the preservice curricula included; (i) Little communication between the preceptors (experienced practitioners who provide supervision during clinical practice and facilitators, i.e. the application of theory to practice for students and staff learners) and the students during clinical practice, (ii) Lack of competency-based approach, (iii) Assessments focused on student's knowledge not skills acquisition (for LARC/PM), and (iv) pre-service programs did not ensure that contraceptives, models equipment, and supplies necessary for students to practice the provision of LARC/PM, EMONC and PAC services were made available. Based on the above gaps, it was evident that there is need to undertake a comprehensive gaps analysis on the pre-service curriculum to provide evidence on the need to revise the Universities and Training Institutions pre-service curriculum to include any emerging issues and innovations that are not reflected in the current pre-service curriculum.

The Ministry of Health also recognizes the critical importance of integrating a Human Rights Based Approach (HRBA) to FP, Reproductive and maternal health into the pre-service training curricula of universities and training institutions. This initiative aims to ensure that healthcare providers are adequately equipped with the knowledge and skills necessary to deliver comprehensive reproductive health services that respect and uphold human rights principles.

MOH in collaboration with, UNFPA and ICRH Kenya is seeking the services of a consultant to undertake Gaps Analysis on the Pre-service training curriculum and draft a revised Universities and Training Institutions pre-service curriculum to include any emerging issues and innovations that are not reflected in the current pre-service curriculum, update information to the current global World Health Organization standards, and strengthen/integrate the Human Rights Based Approach to RH including FP.

The following are the specific objectives of the proposed assignment:

1. To undertake a comprehensive gaps analysis of the current pre-service training curricula used in universities and training institutions under the Ministry of Health, with a specific focus on Family Planning and Human Rights Based Approach to Family Planning, EMONC, PAC, AYFS and MPDSR among others.
2. To develop a pre-service curricular integrating HRBA to FP that to include any emerging issues and innovations that are not reflected in the current pre-service curriculum, update information to the current global World Health Organization standards, and strengthen/integrate Human Rights Based Approach and ensure alignment with the national health policies and guidelines.
3. To develop a costed road map advocating for adaption of the curricular by regulatory authorities, Training instructions and Universities in delivering the revised curriculum effectively.

Scope of Work

The consultancy will involve the following tasks:

1. Review the current pre-service training curricula used by Public and Private Universities and training institutions affiliated with the Ministry of Health to identify gaps related to RH and Family Planning and HRBA to FP.
2. Develop an integrated Pre-service Curriculum that incorporates human rights based approach in consultation with key stakeholders
3. Facilitate technical review and validation of the draft curriculum with key relevant stakeholders
4. Conduct consultations with relevant stakeholders including academic faculty, healthcare providers, Ministry officials, and civil society organizations working in FP, MNH and human rights.
5. Propose revisions and updates to the curricula to integrate FP and HRBA to FP, EMONC, PAC, AYFS, MPDSR among others ensuring inclusion of relevant theoretical and practical components.
6. Develop recommendations for capacity building activities for faculty members and trainers to effectively implement the revised curricula.
7. Develop a detailed costed road map/implementation plan the on advocacy, adoption and roll out of the revised curriculum by the various institutions, regulatory authorities and Professional Associations
8. Prepare a comprehensive report documenting the findings, analysis, recommendations, and revised curricula.

Deliverables

The consultancy will deliver the following outputs:

1. Write an Inception Report which outlines a clear understanding of the ToR, Timeline/ Roadmap and a brief on the Methodology of undertaking the assignment.

2. Assessment report on gap analysis on integration of FP and HRBA, EMONC, PAC, AYFS, MPDSR in the Medical Training Institutions, Private and Public Universities Pre- service training curriculum
3. An integrated Pre-service Curricular incorporating FP and other RH related issues in Medical Schools, Public and Private Universities
4. A costed road map/implementation plan for advocacy and adoption of the revised curriculum by the various institutions, regulatory authorities and Professional Associations.
5. Presentation to stakeholders summarizing key findings and recommendations.
6. Presentation of the activity Report

Duration of the activity

20 days spread across two months.

Requirements

1. Advanced University Degree with at least Masters in Public Health, Obstetrics and Gynaecology, Nursing or a related field.
2. Experience in curriculum development
3. Strong analytical skills and experience in conducting gap analyses and stakeholder consultations.
4. Demonstrated excellent interpersonal and professional skills in interacting with government, civil society, and development partners.
5. Excellent writing and communication skills.
6. At least 7 years relevant Consultancy experience.
7. Has experience working with MOH at the National Level and also the training institutions

A full Terms of Reference will be provided to the successful candidate.

Reporting

The consultancy will report to the Family Planning Manager within the Ministry of Health, Division of Reproductive and Maternal Health.

Budget

The budget for the consultancy will cover all costs including fees, travel, and other expenses related to the execution of the tasks outlined in the ToR.

Evaluation

The consultant is required to submit a technical proposal (not more than 7 pages) responding to this call for expression of interest. The technical proposal should provide the specifics on the methodologies that the consultant will use to achieve the objectives stipulated herein. The consultant's capability statement should also be included in the technical proposal; the curriculum vitae and portfolio of completed sample works may be posted in the annexes. The financial proposal must be submitted as a separate document from the technical proposal and include the consultant's daily rate in Ksh.

Confidentiality

The consultancy team must adhere to strict confidentiality regarding all information and data obtained during the course of the assignment.

The selection of the consultant will be based on;

1. Qualifications/skills suitability and proven experience in similar consultancies (Max 60 points)
2. Value for money (Max 40 points)

Applicants should submit their application in a single email to hr@icrhk.org by **8th August 2024**.

Applications should include a commitment to undertake and complete the consultancy within 20 days spread across two months.

ICRHK is committed to equal opportunities and welcomes applications from appropriately qualified people from all sections of the community.

ICRHK does not charge a fee at any stage of its recruitment.
