

Attachment 1:	Job Description
Title of Position:	Community Health Coordinator
Date of job description:	06 September 2024
Reporting to:	Senior Program Officer – Key Populations
Main tasks and responsibilities	
• Supervise peer education to ensure effective implementation of roles as guided by the Key Population Implementation Guidelines. • Serve as the liaison between the project and the community to facilitate effective implementation. • Plan and coordinate community activities with peer educators to ensure success, including community outreach, psychosocial support groups (PSSGs), and PrEP groups. • Oversee hotspot mapping and validation quarterly, ensuring compliance with national guidelines and proper documentation of the process and hotspot lists. • Coordinate peer educators to mobilize sex workers (including young key populations) to register for and access HIV, STI, and SRH services at drop-in and service centers. • Review and ensure the accuracy and timely submission of peer educator reporting tools. • Ensure that the community component in the Electronic Medical Record (EMR) is up-to-date, accurate, and fully completed. • Achieve DICE targets for key population prevention (KP PREV), annual HIV testing services, case identification, PrEP uptake, viral load monitoring, linkage to care, and other clinical services. • Support the Peer educators to enhance Social Network Strategies to improve HIV case identification among the KPs. • Mobilize key populations through peer educators for PrEP uptake and refills (90% month 1, 50% month 3, and 30% month 6) by creating awareness, sensitization, tracking, follow-up, and accurately documenting reasons for discontinuation. • Participate in planning activities at the DICEs and prepare monthly work plans. • Coordinate micro-planning of activities with peer educators, ensuring complete documentation of the process. • Report on peer education activities monthly and contribute to the preparation of monthly and quarterly program reports. • Coordinate monthly and quarterly peer educator meetings, providing up-to-date KP program information, including HIV continuum of care and oral PrEP cascades, to guide discussions. • Perform any other duties as assigned by the supervisor.	
Specific Requirements	
The position falls under Job Grade 2, Program Assistant I • Education: Secondary school • Preferable working experience in community health • 3 years experience working with the Key Population (FSW, MSM & TG) • Good communication skills, good inter-personal skills • Fluent in English and Swahili
