

Attachment 1	Job Description
Title of Position:	County Field Supervisor
Date of Job Description	19 th August 2025
Reporting to	Project Director

Job Summary:

The County Field Supervisor will be responsible for overseeing the data collection process for the *What Works* project within the assigned county. This role entails managing and providing guidance to a team of enumerators, ensuring adherence to data quality standards, and maintaining compliance with project timelines. At the county level, the Field Supervisor will also serve as the organization's representative to relevant stakeholders, fostering collaboration and facilitating smooth implementation of project activities.

The position requires strong leadership, excellent organizational skills, and the ability to operate effectively in a fast-paced and dynamic environment.

Role and Responsibilities

Team Management

- Recruit, train, and supervise a team of resident enumerators for household surveys.
- Provide guidance, support, and feedback to enumerators to ensure quality data collection.
- Schedule and assign survey tasks to enumerators, ensuring adequate coverage of designated areas.

Field Supervision

- Oversee and coordinate all data collection activities within the assigned county.
- Manage, support, and provide daily oversight to a team of enumerators.
- Monitor fieldwork progress to ensure adherence to study protocols and timelines. Ensuring that only the approved study tools are used for field work.
- Provide on-the-spot mentorship and problem-solving support to enumerators.
- Monitor field activities to ensure adherence to survey protocols and data collection procedures.
- Conduct regular spot checks and quality control measures to verify the accuracy and completeness of collected data.
- The County Field Supervisor is responsible for the county security management and ensures that staffs are working in secure environment.
- Report and document comprehensively lessons learnt and any adverse events that may occur during project implementation at their respective counties.
- The County Field Supervisor will communicate regularly with the central staff about any issues/occurrences that cannot be resolved independently at the county level during the implementation of the project and document all matters resolved at County level.

Data Quality Assurance

- Ensure all data collected meets established quality standards.
- Conduct spot-checks, back-checks, and routine supervision to validate data accuracy.
- Address and resolve data quality issues in a timely manner.
- Submit daily/weekly reports on field progress, challenges, and recommendations.
- Ensure that all the project documents are handled, stored in a safe and secure place.

Stakeholder Engagement

- Represent the organization at the county level to relevant government officials, community leaders, and other stakeholders.
- Facilitate smooth collaboration and communication between the project and county stakeholders.
- Address and report any concerns or challenges raised by local partners in relation to project activities in a timely and diplomatic manner.
- Foster positive relationships with the community to encourage participation and cooperation.

Logistics and Coordination

- Ensure enumerators have the tools and resources required for fieldwork activities including troubleshooting technology issues whenever or immediately they are reported.
- Coordinate field movements, including transport, scheduling, and resource allocation.
- Maintain accurate records of field activities and ensure timely submission of reports.

Performing any other duties as may be assigned by the supervisor or management.

Academic / Professional Qualifications

- Bachelor's degree in Public Health, Social Sciences, Statistics, or a related field.
- Prior experience in research, data collection, or fieldwork management.
- Strong leadership and interpersonal skills, with the ability to effectively manage a team in a field setting.
- Excellent organizational and problem-solving abilities, with attention to detail.
- Proficiency in computer applications such as Microsoft Excel, Word, and REDCap
- Knowledge of community engagement strategies and cultural sensitivity.
- Ability to communicate effectively in both written and verbal formats.
- Flexibility to work irregular hours and travel to various locations as required.
- Have a valid driving Licence.
- Familiarity with the study setting will be considered an added advantage
