PERSONAL PROFILE

A results-oriented Finance Professional and Bachelor of Commerce (Finance) graduate with over three years of diverse experience across traditional accounting, AI financial modeling, and subject matter consulting. Proven expertise in payroll processing, accounts payable lifecycle management, and stock control, with a strong technical command of QuickBooks and iTax.

KEY SKILLS

- Payroll Administration
- Accounts Payable (AP)
- Stock & Inventory Control
- Cash Management
- Taxation & Compliance
- Financial Software
- AI Finance Integration
- Financial Reporting
- Audit & Internal Control
- Data Analysis

PROFESSIONAL EXPERIENCE

August 2024 – Present | AI Finance Operations Specialist | Outlier.ai

(Remote)

- **Payroll System Optimization:** Authored and audited complex logic for AI models to automate end-to-end payroll processing, including the calculation of statutory deductions (PAYE, NHIF, NSSF), leave pay, and specialized gratuity benefits.
- **Accounts Payable (AP) Lifecycle Management:** Trained AI models to perform multi-way matching (Invoice vs. PO vs. Delivery Note), ensuring the accuracy of accounts payable aging reports and vendor payment schedules.

- **Stock Valuation & Inventory Logic:** Developed high-level financial prompts to evaluate AI performance in stock control, specifically testing logic for FIFO/LIFO valuation, buffer stock alerts, and work-in-progress (WIP) costing.
- **Cash Flow & Liquidity Analysis:** Validated AI-generated cash flow forecasts, ensuring accurate categorization of cash handling activities and the reconciliation of digital payment gateways with internal ledgers.
- **Financial Compliance Auditing:** Conducted quality assurance on AI responses regarding tax compliance and audit trails, ensuring outputs aligned with International Financial Reporting Standards (IFRS) and local regulatory requirements.
- **Disbursement Logic:** Evaluated AI models on their ability to handle bulk payment disbursements and electronic funds transfers (EFT) while maintaining strict security protocols.

August 2023 – July 2024 | Finance Subject Matter Expert & Consultant |

Studypool (Freelance)

- **Corporate Finance & Payroll Consulting:** Provided detailed technical solutions for payroll management scenarios, including the design of payroll registers and the implementation of internal controls to prevent fraud.
- **Inventory & Stock Management:** Acted as a lead consultant for global clients on inventory management systems, providing complex calculations for Economic Order Quantity (EOQ) and stock turnover optimization.
- **Cash Management & Bank Reconciliations:** Delivered expert-level guidance on daily cash handling, petty cash management, and the resolution of long-standing bank reconciliation discrepancies.
- **Accounts Payable & Receivable Strategy:** Developed strategic frameworks for managing payables, focusing on credit term negotiations and the impact of payment timing on

organizational working capital.

- **Quantitative Data Analysis:** Utilized advanced data analysis techniques to solve financial modelling problems, ensuring all solutions were backed by statistical reporting and data enumeration.
- **Taxation Advisory:** Resolved complex queries related to tax preparation and filing, ensuring clients understood the implications of local tax laws on their financial statement

June 2022 – July 2023 | Assistant Accountant (Intern) MTN Sacco

society, Muranga

- **Financial Reporting:** Prepared balance sheets, profit and loss statements, while ensuring accurate documentation of all transactions.
- **Tax & Audit:** Managed tax return filings and substantiated financial transactions through internal auditing of documents.
- **Cash Management:** Handled daily banking, reconciled financial discrepancies, and processed payments for both cash and corporate credit clients.
- **Reconciliations:** Performed daily bank reconciliations and updated manual receipt reports for the Chief Accountant
- **Payroll Administration:** Processed monthly payroll for staff, ensuring accurate calculation of gross pay, statutory deductions (PAYE, NHIF, NSSF), and net salaries while maintaining strict confidentiality.
- **Accounts Payable Management:** Managed the full cycle of accounts payable, including verifying invoices against purchase orders, seeking approvals, and scheduling timely payments to vendors and suppliers.
- **Inventory & Stock Control:** Conducted regular physical stock counts and reconciled inventory records with the ledger to identify variances, ensuring optimal stock levels were maintained.

- **Fixed Asset Register Maintenance:** Monitored and updated the fixed asset register, calculating monthly depreciation and ensuring all organizational assets were correctly tagged and accounted for.
- **Electronic Funds Transfer (EFT):** Initiated and tracked bulk EFT payments and RTGS transfers for corporate clients and staff, ensuring zero errors in bank account details and amounts.
- **Statutory Compliance:** Prepared and filed monthly VAT and Withholding Tax returns on the iTax portal, ensuring full compliance with KRA regulations to avoid penalties.
- **Petty Cash Oversight:** Managed the petty cash float, verifying all reimbursement requests against supporting receipts and performing weekly cash counts to ensure accountability.
- **Supplier Reconciliation:** Performed monthly reconciliations of supplier statements against internal records to resolve discrepancies and maintain positive credit relationships.
- **Budget Monitoring:** Assisted in the preparation of departmental budgets and monitored expenditure to ensure all spending remained within approved limits.
- **Audit Preparation:** Compiled and organized financial schedules and supporting documentation for external auditors to facilitate a smooth and efficient annual audit process.
- **Loan Disbursement Verification:** Reviewed member loan applications for accuracy and compliance with Sacco policies before final disbursement of funds.

August 2019 – September 2019 | Content Enumerator (2019 Census) |

Kenya Bureau of Statistics (KNBS)

- **Data Collection & Enumeration:** Conducted door-to-door interviews to collect accurate demographic, social, and economic data from households using mobile data collection devices

(tablets).

- **Quality Assurance:** Verified the consistency and integrity of collected data before transmission to the central server, ensuring zero duplication and high accuracy levels.
- **Confidentiality & Ethics:** Maintained strict confidentiality of respondent information in accordance with the Statistics Act and KNBS ethical guidelines.
- **Logistics & Reporting:** Managed assigned enumeration areas (EAs) and submitted daily progress reports to the Supervisor regarding coverage and challenges faced in the field.
- **Public Relations:** Effectively communicated the importance of the census to the public, ensuring maximum cooperation and participation from diverse community members.
