

Curriculum Vitae (CV)

LUCY NDINDA MUSILA

P.O. Box 180-00519, Mlolongo, Kenya

Email: lucymusila87@gmail.com

Tel: +254 797-722992, +254 734-826315

A data analyst / applied statistician with experience using analytics to support financial systems, compliance, and operational decision-making in large-scale institutions. Skilled in Python, statistical modelling, and translating complex datasets into insights that improve access, efficiency, and inclusion for end users. Adept at producing accurate reports, improving data processes, and strengthening operational efficiency.

PERSONAL DETAILS

- Date of Birth: 7th April 2003
- Nationality: Kenyan
- Languages: Fluent in English and Swahili

SPECIAL SKILLS AND ATTRIBUTES

TECHNICAL SKILLS

- Data analysis and interpretation for financial and operational decision-making
- Statistical modelling and regression analysis using Python, SQL, R, SPSS, Power BI and Power Query.
- Data cleaning, reconciliation, prediction and validation for large transactional datasets
- Monitoring & evaluation-style analysis to track trends, risks, and outcomes
- Working with financial systems (IFMIS, contribution and payment records)
- Translating technical insights into clear reports for non-technical stakeholders

PROFESSIONAL COMPETENCIES

- Strong communication skills for conveying complex information to stakeholders, both in writing and verbally
- Excellent time management for handling multiple tasks and meeting deadlines
- Customer service-oriented with a focus on addressing concerns and maintaining positive relationships
- Strong critical thinking abilities for evaluating situations and making informed, data-driven decisions

PROFESSIONAL EXPERIENCE

Position: Learning Assistant, IFMIS Section

Employer: Machakos County Government

Duration: May 2023 – July 2023

Duties:

- Managed and analysed high-volume financial transaction data (100+ transactions weekly), ensuring data accuracy and integrity within a national financial management system.
- Supported budgeting and forecasting processes through preparation and analysis of monthly financial reports.
- Identified expenditure trends and variances, enabling evidence-based allocation and improved financial accountability.
- Worked within regulated financial systems, strengthening compliance, audit readiness, and transparency.

Position: Attachee (Industrial Based Learning)

Employer: National Social Security Fund (NSSF) Kitengela

Duration: May 2024 – August 2024

Duties:

- Facilitated the registration and onboarding of new members, ensuring accuracy in data entry and timely issuance of member statements.
- Onboarded 300+ new members with error-free data entry, reducing delays in statement issuance and improving service efficiency.
- Calculated contributions and processed statutory returns for employer accounts, improving compliance adherence.
- Processed 150+ payments weekly (cash and cheques) with zero discrepancies recorded in financial logs.
- Assisted the Benefits Department in claims processing, improving turnaround time for member payouts.
- Performed data reconciliation and organized financial records to support accuracy during audits.

FURTHER EDUCATION

September 2021 – April 2025	Technical University of Kenya Diploma in Technology (Applied Statistics)
-----------------------------	---

SECONDARY EDUCATION

January 2017 – April, 2021	Loreto Convent Msongari Graduated with C+
----------------------------	--

PRIMARY EDUCATION

January 2010 – November, 2016	Kiuini Preparatory School Graduated 374/500 Marks
-------------------------------	--

RESEARCH DONE/PUBLICATIONS

1. Exploring the Impact of Postpartum depression on Mother-Infant bonding.

Unpublished research paper, Department of Mathematics and Actuarial Sciences, Technical University of Kenya. Supervised by **Mr. Stanley Marindany** – Teaching Assistant, Financial and Actuarial Mathematics

I applied statistical modelling and python-based analysis to identify risk factors, trends, and outcome patterns in complex, multi-variable datasets. Thus, I developed predictive insights to inform early-intervention strategies and policy recommendations.

REFEREES

Mr. Samuel Muli Mutinda – Head Benefits Officer,
National Social Security Fund – Kitengela Branch.
