

ERICK MUSILI**Economics & Finance Graduate****Nairobi, Kenya****Phone: +254113155329/+254787050767****Email: erickmunyoki9musili@gmail.com****PROFESSIONAL SUMMARY**

Economics and Finance graduate (Second Class Upper Division, 2025) from Machakos University with strong analytical, research, and data management skills. Experienced in practical data analysis using Python, Stata, SPSS, Power BI, and Excel, with expertise in project appraisal, development economics, and public finance. Passionate about applying economics, finance, and data skills to support development, humanitarian programs, and evidence-based decision-making.

CORE COMPETENCIES

- 1)Data Analysis & Statistical Modeling
- 2)Monitoring and Evaluation (M&E)
- 3)Project Appraisal & Feasibility Analysis
- 4)Economic & Policy Analysis
- 5)Development Economics & Public Finance
- 6)Survey Data Analysis
- 7)Financial & Budget Analysis
- 8)Assets & Liabilities Accounting
- 9)Research & Report Writing
- 10)Data Visualization & Dashboard Development

TECHNICAL SKILLS

- 1)Data Analysis: Python (Pandas, NumPy, Statsmodels), Stata, SPSS
- 2)Visualization & BI: Power BI, Matplotlib, Seaborn, Excel (Pivot Tables, dashboards)

3)Productivity Tools: Microsoft Word, PowerPoint

EDUCATION

Bachelor of Economics and Finance (Second Class Upper Division, 2025)

Machakos University – Kenya

Relevant Coursework:

1)Macro Economics

2)Micro Economics

3)Labour Economics

4)Development Economics

5)Project Appraisal

6)Public Finance

7)Assets & Liabilities Accounting

8)Insurance

9)Economics of Statistics

10)Econometrics

DATA ANALYSIS & PYTHON PROJECTS

1.)County Economic Analysis (Python)

Cleaned and analyzed county-level economic datasets using Python (Pandas, NumPy)

Conducted regression analysis to determine factors affecting income and employment

Created visualizations using Matplotlib & Seaborn (scatter plots, histograms, heatmaps)

Exported clean datasets for Power BI dashboards to inform program planning

2.)Voter Turnout Analysis (Stata & Python)

Analyzed socio-economic factors affecting voter participation

Applied descriptive statistics and regression models to identify key predictors

Produced charts and reports for policy recommendations

3.)Power BI Dashboard Development

Developed interactive dashboards for economic and programmatic data

Presented KPIs and visual summaries for monitoring and evaluation

4.)Project Appraisal & Feasibility Analysis

Conducted cost-benefit and financial feasibility studies for simulated development projects

Produced actionable reports recommending resource allocation and projected outcomes

PRACTICAL EXPERIENCE

1)Performed statistical analysis using Stata and SPSS

2)Managed, cleaned, and processed datasets in Python and Excel

3)Built dashboards in Power BI for data-driven decision-making

4)Conducted project appraisals and feasibility studies

5)Produced research reports integrating economics, finance, and statistics

LEADERSHIP & TEAMWORK

1)Collaborated on university research projects analyzing economic and financial data

2)Participated in team assignments requiring planning, coordination, and analytical thinking

3)Strong communication and problem-solving skills demonstrated through research presentations

PROFESSIONAL INTERESTS

1)Monitoring & Evaluation for development programs

2)Project appraisal and economic policy research

3)Humanitarian and refugee assistance programs

4)Data-driven development decision-making

LANGUAGES

1)English – Fluent

2)Swahili – Fluent

REFEREES

1)Dr James Murunga

HOD Economics, Machakos university

Phone:0723548314

2)Dr Philip Musyoka

Senior Lecturer, University of Nairobi

Phone: 0720100166

3) Duncan Musyimi Munyoki

Business lead, Pavicon Kenya limited

Phone:0700281365
