Objective

Dedicated and results-oriented professional with a Bachelor of Arts in Social Work and proven expertise in sales, community mobilization, and data collection. Seeking a rewarding position that leverages my ability to drive business growth, strengthen client relationships, and implement impactful community development programs.

Experience

- Ministry of Agriculture - KCSAP Project** May, 2021 - June, 2021
Enumerator
 - Data collection exercise for both small scale and large scale farmers all participating in five various agricultural value chains using KOBO Collect data collection tool in East Yimbo
 - Evaluation and farmer visitations to see if the projects objectives are being met and also to assess the success of the farmers in their various value chains
 - Question and Answer (Q&A) sessions with farmers to assess and know the issues, problems and concerns they have in relation to their agricultural practices
- Kenya Commercial Bank-Bondo Branch** January, 2022 - December, 2022
Sales Representative

Exceeded sales targets by 15%, contributing to branch revenue growth and earning recognition for consistent performance.

Acquired and retained 200+ MSME clients, ensuring a portfolio retention rate above 90%.
Opened and activated 300+ business tills, supporting digital financial inclusion and expanding KCB's footprint.
Reactivated dormant tills, boosting transaction volumes and customer engagement.
Promoted bancassurance and float purchase solutions to M-PESA agents, increasing insurance penetration and liquidity access.
Conducted field visits and customer feedback surveys, strengthening product adoption and service improvement.
- Ministry of Agriculture - KeLCoP Project, Siaya County** February, 2023 - July, 2023
Enumerator
 - Took part in training my fellow trainees on how to set up and use the KOBO COLLECT tool for better data collection exercise. Highlighted key/ necessary areas to be handled before data collection interview, during data collection interview and also after data collection interview so as to ensure accuracy and consistency in data collected
 - Data collection in 5 major value chains considered by the project that is poultry rearing, apiculture, sheep rearing, goat keeping and rabbit management.
 - Identification of the ultra poor household who could be the possible target population for the project.
 - Identification of the extent to which the farmers were involved in the agricultural practices which would or would not determine the household main source of income
- Ministry of labour and social protection- State Department for Social Protection, Gender and Senior Citizens Affairs** August, 2021 - August, 2023
Inua Jamii Program Volunteer (Bondo Sub-county)
 - Handled all cases related to the cash transfer program for both the older person cash transfer (OPCT) and the Persons with Severe Disability cash transfer (PwSD).
 - Reinstatement of the suspended beneficiaries after analysis of the reasons that lead to their suspension.
 - Household listing for new beneficiaries (older persons and those with severe disabilities) to the Cash Transfer Program
 - Registration of new older persons and those with severe disabilities in to the Cash Transfer Program.
 - Managed beneficiary records and supported implementation of the Inua Jamii cash transfer program

Provided psychosocial support and counseling to vulnerable households, including youth and elderly
Organized community sensitization forums and liaised with local leaders to strengthen program uptake

- **Ministry of Labour and Social Protection**

3rd October, 2024 - 31st December, 2024

Supervisor of Enumerator

- Carry out field visitation to all assigned enumerators.
- Assign listed households to enumerators
- Approve/reject data uploaded by the enumerators.
- Act as a link between the enumerators and the national monitoring team and a link between the enumerators and the local administration authorities.
- Carry out shadowing/ assessment of each enumerator in the field while collecting data.

- **International Centre for Reproductive Health Kenya**

April, 2025 - June, 2025

County Field Supervisor

Managing a team of enumerators ensuring accuracy and quality of collected data and adherence to the project timelines. Serves as primary Representative of the organization at the County level engaging with key stakeholders to facilitate smooth project implementation.

1. Team Management:

Recruit, train and supervise a team of enumerators to conduct household based survey

Provide ongoing guidance, support and constructive feedback to enumerators to ensure high quality data collection.

Develop work schedules and assign survey tasks to ensure comprehensive coverage of the designated area

2. Data Collection Oversight:

Provide overall support, guidance and act as the focal point for project planning, implementation and reporting at all levels.

Ensures that only approved data collection tools are used during fieldwork.

Monitor field activities to ensure strict adherence to survey protocols and data collection procedures.

Conduct regular spot checks and implement quality control measures to verify the accuracy, reliability and completeness of data collection.

Oversee security management at the county levels ensuring all staff operates in safe and secure environment.

3. Community Engagement:

Establish and maintain strong relationship with the community leaders, local authorities and other key stakeholders to facilitate smooth survey implementation and gain their support.

Responds promptly and respectfully to any concerns, questions or issues raised by the community members regarding the survey process to foster trust and transparency.

Actively builds and sustain positive relationship with the community to encourage participation, cooperation and supportive environment for successful data collection

4. Data Management

Maintains consistent communication with enumerators to ensure that they are adhering to established protocols and consistently collecting high quality data.

Ensures that all data management queries are promptly addressed and accurately communicated to the central team to maintain data integrity.

Oversees the implementation of project's quality procedures, ensuring all data management processes are properly documented in the county.

Ensures that all project documents are securely handled, stored and safeguarded to prevent loss or unauthorized access.

Ensures that all enumerators are equipped with all necessary materials required for data collection activity. Promptly address and troubleshoot any technology related issues as soon as they are reported.

Led youth-centered outreach and mobilization for sexual and reproductive health programs targeting adolescents and young adults

- Facilitated life skills workshops and gender awareness sessions in schools and community forums
- Coordinated field activities, supervised peer educators, and ensured timely reporting and data collection
- Built partnerships with local institutions to support youth mentorship and health service delivery.
- Active in youth empowerment forums and academic workshops on aging and social protection

Education

- **Moi University**
Bachelor of Arts in Social Work
Second Class (Upper Division)

2026

- Computer literacy (Word, Excel, PowerPoint) applications (Word, Excel, PowerPoint)
- Program coordination & stakeholder engagement
- Leadership, communication & pastoral care
- Report writing & documentation
- Community mobilization & engagement
- Emotional intelligence & adaptability
- Time management & self-organization
- Youth mentorship & life skills facilitation
- Gender mainstreaming & psychosocial support
- Willingness to relocate and serve in rural communities

Projects

- **Surround Sound Kenya Evaluation Project**
This was a one year project, divided into two sections; baseline study and endline study. It was basically an evaluation study of a media campaign including TV, radio, comic books, and social media. Part of this media campaign was about youth education and sexual and reproductive health including family planning. At the end of the study the main focus was to find out how media and social media contents consumption by the youths between ages 15 and 24 shape their general life, their education as well as their sexual and reproductive health matters such as family planning.
The study was conducted in the three counties of Siaya, Nairobi and Nakuru.
Results: Supervised a team of enumerators in collection of quality data across the county of assignment (Siaya) within the specified time frame successfully.
- **Kenya Social and Economic Inclusion Project**
Database Development
Guided teams in the development of the Enhanced Single Registry (ESR) Database for Bondo Sub-County under the Kenya Social and Economic Inclusion Program (KSEIP)
Clients: Ministry of Labor and Social Protection, State Department for Social Protection, Gender, Senior Citizens Affairs and Special Programs and all allied ministries and departments.
Results: Improved the chances of inclusion, in to government programs, all people in the category of special group including all existing Inua Jamii Program beneficiaries and all potential beneficiaries

Achievements & Awards

- Participated in a three weeks Data Protection and Quality Assurance training hosted by African Population and Health Research Centre (APHRC), where I gained knowledge and experience on how to handle data from the field up to the point of consumption by the relevant authorities. Also learned about Data Protection Act, Data Anonymisation, as well as DOI creation and security, Data breach and how to report data breach in an organisation.
