Place of birth: Nairobi, Kenya **Nationality**: Kenyan

ABOUT ME

ICT Professional (3+ years) with a Bachelor's in Software Engineering and CCNA certification. Proven experience managing IT infrastructure for 200+ users, implementing cybersecurity controls, and developing full-stack applications. Seeking to apply technical expertise in data security, health information systems, and network administration at ICRHK to support reproductive health research, program monitoring, and protection of sensitive beneficiary data. Core competencies: health data management (MySQL, RBAC, backup/disaster recovery); IT infrastructure (LAN/WAN, firewall, 99.5% uptime); cybersecurity (authentication, vulnerability remediation, data protection); M&E support (system integration, dashboards, asset inventory); and training & capacity building (trained 50+ students annually).

EDUCATION AND TRAINING

[01/09/2023 – 14/11/2025]

Degree in Software Engineering

Zetech University <https://www.zetech.ac.ke/>

City: Nairobi | **Country**: Kenya | **Field(s) of study**: Information and Communication Technologies: • *Software and applications development and analysis* | **Level in EQF**: EQF level 6

- **Relevant Coursework**: Database Systems, Web Development, Algorithms.
- **Final Year Project**: Developed a **Hospital Visit Tracking System** for terminal patients using PHP, MySQL, React, and Tailwind CSS, featuring secure authentication and **role-based access control** for sensitive data management.

[02/05/2022 – 25/08/2023]

Diploma in Informtion Technology

Zetech University <https://www.zetech.ac.ke/>

City: Nairobi | **Country**: Kenya | **Field(s) of study**: Information and Communication Technologies: • *Database and network design and administration* | **Level in EQF**: EQF level 5

- **Key Project**: Built a University Front Office Management System (HTML, CSS, JavaScript, PHP, MySQL) to automate administrative processes.
- **Coursework**: Programming Fundamentals, System Analysis, Networking.

[01/01/2019 – 01/11/2021]

Certificate in Information Technology

NYS Engineering Craft Training School <https://www.nys.go.ke/>

City: Nairobi | **Country**: Kenya | **Field(s) of study**: Information and Communication Technologies: • *Information and Communication Technologies (ICTs) not further defined* | **Level in EQF**: EQF level 4

- **Key Project**: Developed a Fleet Management System (HTML, CSS, JavaScript, PHP, MySQL) with database-driven reporting features.

WORK EXPERIENCE

Zetech University

City: Nairobi | **Country**: Kenya

[24/05/2024 – 25/11/2025]

IT Support Officer

Infrastructure & Security

- Managed LAN/WAN for 200+ users, achieving 99.5% uptime – ensuring uninterrupted access to critical systems
- Enforced firewall configurations and monitored security events, remediating 15+ vulnerabilities before exploitation
- Implemented backup strategies achieving 100% data recoverability in two disaster recovery drills – directly applicable to protecting patient/research data at ICRHK

Data Protection & Compliance

- Enforced role-based access controls (RBAC) and authentication protocols, protecting confidential institutional data
- Maintained ICT asset inventory with zero audit discrepancies – valuable for donor-funded asset tracking
- Administered Microsoft 365 for 200+ users; delivered training that increased staff productivity by 25%

Petanns Driving School

City: Nairobi | **Country:** Kenya

[21/01/2022 – 13/03/2024]

ICT instructor

- Developed and delivered comprehensive ICT curriculum to 50+ students annually, achieving 95% pass rate in computer literacy assessments
- Trained students in Microsoft Office Suite applications, designing practical exercises linking technology concepts to real-world business applications
- Maintained computer lab equipment for 30 workstations, resolving 95% of technical issues during instructional sessions without external support

National Youth Service

City: Gilgil | **Country:** Kenya

[09/10/2017 – 28/09/2018]

Public Service Trainee

- Completed intensive paramilitary training in discipline, integrity, and public service ethics within structured, rule-based environments
- Developed strong compliance orientation and ability to follow established procedures with precision in high-pressure situations
- Strengthened capacity to handle confidential matters with professionalism and discretion, receiving commendation for reliability

SKILLS

IT Infrastructure & Cybersecurity

Microsoft 365 Administration | System Hardening | Access Controls | Disaster Recovery | Backup Strategies | IT Asset Management

Networking

Cisco Networks (CCNA Certified) | Network Administration | Performance Monitoring

Data Management & Databases

MySQL | SQL | Database Design | Data Modeling

Software Development

PHP | JavaScript (React) | HTML5 | CSS3 | Full-Stack Development | Responsive Design | SDLC

Professional Skills

Problem-Solving | Project Coordination | Cross-Cultural Communication | Curriculum Development | Technical Training

LANGUAGE SKILLS

Mother tongue(s): Swahili

Other language(s):

English

LISTENING C2 **READING** C2 **WRITING** C1

SPOKEN PRODUCTION C2 **SPOKEN INTERACTION** C2

Spanish

LISTENING A1 **READING** A1 **WRITING** A1

SPOKEN PRODUCTION A1 **SPOKEN INTERACTION** A1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

PROJECTS

[04/05/2025 – 19/10/2025]

Hospital Visit Tracking System (React, PHP, MySQL)

- Engineered comprehensive patient tracking system for terminal patients, managing 500+ visit records with 100% data integrity
- Implemented secure authentication and role-based access control, ensuring sensitive medical data accessible only to authorized personnel
- Developed responsive reporting interface enabling administrative oversight and data-driven decision making
- Followed full SDLC including requirements gathering, validation, coding, testing, and implementation

[10/10/2022 – 17/05/2023]

University Front Office Management System (PHP, MySQL)

- Built functional management system automating administrative processes for university front office operations
- Conducted system analysis and user requirements gathering with 20+ stakeholders to ensure practical solution implementation
- Incorporated database design principles ensuring normalized data structure and query optimization

[13/05/2020 – 30/09/2021]

Fleet Management System (PHP, MySQL)

- Designed and developed database-driven system for tracking logistics across 15 vehicles and generating operational reports
- Implemented reporting features enabling management to reduce fuel costs by 15% through improved route tracking
- Demonstrated end-to-end development capability from concept to deployed business application

CERTIFICATIONS

[Cisco Networking Academy,
08/05/2023]

Cisco Certified Specialist

- Earned four Cisco certifications demonstrating comprehensive networking and cybersecurity expertise:
 - **CyberOps Associate** (May 2023)
 - **Network Security** (Jan 2023)
 - **Introduction to Cybersecurity** (Jun 2022)
 - **CCNAv7: Enterprise Networking, Security, and Automation** (Dec 2022)
