PROFESSIONAL PROFILE

A Health Promotion professional experienced in planning, managing, and evaluating community health activities, with dedicated focus in Maternal & Child Health programs and Sexual Reproductive Health Rights (SRHR). Proven track record in mobilizing Community Health Volunteers, developing impactful Information, Education, and Communication (IEC) materials, and conducting data-driven reporting to improve health outcomes and encourage behavioral change particularly among women, youth, and vulnerable populations. I am skilled in data-driven approaches, basic M&E and project management. Seeking an opportunity to contribute to improving the health and well-being of women, children, and vulnerable populations at the community level.

- **M&E Tools:** Experienced in data collection, cleaning, and monthly progress reporting.

- Proficient in Microsoft Office Suite (Excel, Word, PowerPoint)
- Research: Skilled in collecting and summarizing community feedback for program improvement.

WORK EXPERIENCE

INTERN HEALTH PROMOTION OFFICER|GATAKA HEALTH CENTRE | JUNE 2022- SEPTEMBER 2022

Responsibilities:

- Spearheaded the planning of community health interventions, resulting in increased awareness and higher utilization of facility-based maternal and reproductive health services.
- Developed and localized high-impact IEC materials tailored to community demographics to drive positive behaviour change.
- Managed and mentored a team of Community Health Volunteers (CHVs) and peer educators, empowering them to identify local health gaps and mobilize community members effectively.
- Facilitated focus group discussions and health talks to address sensitive cultural barriers, maternal and child health, and stigma surrounding adolescent health and GBV
- Implemented a monitoring system for outreach activities, analyzing field data to generate comprehensive monthly progress reports for data-driven decision-making.
- Collaborated with multi-disciplinary healthcare teams to ensure seamless integration between community-level initiatives and facility-based clinical services.

HEALTH PROMOTER/PUBLIC HEALTH ASSISTANT | NEW LIFE MISSION | MAY 2023- SEP 2023

Responsibilities:

- Partnered with local leaders and faith-based influencers to advocate for essential health issues, reaching diverse families within churches and schools.
- Designed and led structured health education sessions focused on hygiene, nutrition, and family wellness, promoting sustainable behavior change.
- Directed the design and distribution of targeted leaflets and brochures, ensuring health information was accessible and culturally appropriate for the Kajiado community.
- Conducted community feedback surveys to identify service delivery gaps, using insights to improve the effectiveness of future outreach.
- Provided technical support for large-scale health campaigns, including child immunization drives and family planning initiatives.
- Maintained meticulous project records and prepared simplified reporting dashboards to share program updates with the project management team.
- Empowered women through weekly sessions on Reproductive Health Rights and modern

family planning methods to enhance bodily autonomy.
